After this morning's "management meeting" with the A/Secys, Secretary Clinton approached Ambassador Boswell and mentioned that she had read the IM and that she "gets it". Her attention was drawn to the sentence that indicates we (DS) have intelligence concerning this vulnerability during her recent trip to Asia.

Secretary Clinton has asked Ambassador Boswell for this information. Please prepare a short informal paper OR provide the A/Secy with a briefing on this matter. Your assistance is appreciated. The Secretary did not provide a "due date"... BUT the Ambassador would like to close this loop as soon as possible. Thanks, [redacted]

[redacted] - In reference to the subject Info Memo, Amb. Boswell requested we obtain IRM clearance. In doing so we received the guidance below (highlighted in red). Please follow-up to determine whether or not this will affect the Memo anyway.

[redacted] we have made one minor edit at the beginning of para two. Inserted S/ES-IRM vs IRM as IRM does not manage Mahogany Row desktops. Also, [redacted]

[redacted] This info may have some bearing on your final wording (or not). With the minor edit, IRM (D/CIO - [redacted]) clears. [redacted]
