I have discussed ⬚ comment with ⬚ S/ES-IRM, regarding ⬚ and he advises that has no relevance to this memo. ⬚ He did advise the Secretary ⬚ does not have an OpenNet+ terminal (because she doesn't use computer systems). He provided his name and the name of his boss, ⬚ as clearers of the memo, which I added. ⬚

⬚ wel have made one minor edit at the beginning of para two. Inserted S/ES-IRM vs IRM as IRM does not manage Mahogany Row desktops. Also, ⬚ ⬚ This info may have some bearing on your final wording (or not). With the minor edit, IRM (D/CIO - ⬚) clears. ⬚
