Bob,

Since I am conflicted from direct discussions with Sierra Club on specific party matters, Larry has taken the lead on discussions with them on Summit.

His careful and thoughtful approach undoubtedly contributed to this outcome.

It'll be nice to someday see a full-scale CCS unit up and running.

Thanks Larry.

Al and Bob,

I just learned that Sierra Club voted "not" to contest Summit Power's permit with CCS. So the project should go forward with its permit issued before the end of the calendar year.

I think this is a good result.
