

**U.S. Department
of Transportation**

Office of the Secretary
of Transportation

1200 New Jersey Avenue, SE
Washington, DC 20590

December 27, 2017

Senator Ron Wyden
United States Senate
Washington, DC 20510

Dear Senator Wyden:

Thank you for your letter of December 21, 2017. While we prepare specific answers to your questions, we wanted to provide this interim response.

Your concerns about rail safety and implementation of positive train control (PTC) are important ones. You can be assured that these issues have the full attention of the dedicated employees of the Federal Railroad Administration (FRA) and the entire U.S. Department of Transportation, especially in light of the recent Amtrak derailment in Washington State. The Department will keep Congress apprised as we work with the Nation's railroads to address the need for improved rail safety and to advance the rollout of PTC technology as mandated by Congress.

In the meantime, we cannot overlook the disturbing fact that the Federal Railroad Administration remains without a Senate-confirmed Administrator during this very critical period. As you are aware, the Senate minority is objecting to confirmation of several nominees, including Ronald L. Batory for Federal Railroad Administrator, despite his being reported without objection from the Senate Committee on Commerce, Science, and Transportation. At a time when PTC implementation is so important, we believe having a confirmed administrator should be a priority for the United States Senate. In the wake of the terrible rail accident in Washington State, Ron Batory needs to be confirmed as Federal Railroad Administrator as soon as possible.

A similar response has been sent to each cosigner of your letter.

Sincerely,

A handwritten signature in blue ink, appearing to read "SMcMaster", written over a light blue horizontal line.
