REP. ANN WAGNER is **COMPLICIT** in the separation of families.

UN-AMERICAN

Throughout history, America has fought to protect families in jeopardy. But now our government is locking up thousands of children in military detention centers along our own border.¹

UNJUST

As an elected member of Congress, Wagner has the power to act against this crisis. But she has refused to support legislation that would keep families safe and together.

UNWORTHY

Wagner voted to let the Trump administration lock up children and families indefinitely, and make it harder for these children to ever see their families again. Wagner is making this crisis worse.²
