Progressive Democrats of America (PDA) was founded in 2004 to transform the Democratic Party and our country. We seek to build a party and government controlled by citizens, not corporate elites - with policies that serve the broad public interest, not just private interests. As a grassroots PAC, PDA operates inside the Democratic Party, and outside in movements for peace and justice.

## Healthcare:

***Millions of Americans have no reliable access to health care and millions more have inadequate or overly expensive coverage. Pharmaceutical interests overcharge Americans by avoiding price competition.***

# War and Peace

***Terrorism should be treated as a crime, not as a pretext for war and global military expansion. Nuclear weapons are too dangerous to serve the strategic interests of any country and must be abolished. Initiatives to promote peace, disarmament, and the rule of international law will allow the US military budget to return to the 1998 peacetime level. We must bring our troops home to their families and redirect wasteful military spending to reinvest in America.***

## Election Integrity:

***Big-money domination threatens our election system. Incumbents are unfairly insulated by district gerrymandering. Voters face political and racial obstacles to voting and getting their votes counted. Digital voting systems and internet voting are vulnerable to error and manipulation and defy verification. Only an auditable paper ballot can protect our right to vote.***

**EMERGENCY AID FOR NATURAL DISASTERS**

The climate change-intensified natural disasters of 2017 have laid bare the federal government’s current response as both politicized and racist. How would you identify and legislatively fix underlying structural flaws in federal disaster relief and preparedness funding to ensure more timely, equitable, a effective federal responses to future events? (No more than 250 words)

The recent natural disasters and our federal government’s response are unacceptable. We must take legislative action to address and combat climate change but of equal importance, we must do more to address federal disaster relief. Responding to natural disasters is the responsibility of a civilized people and our federal government. I strongly oppose short-sighted and mean-spirited proposals calling to reform the Stafford Act that would shift the cost burden for disaster recovery to states when they need the assistance of our federal government the most. I also oppose changes that increasing the spending threshold for FEMA assistance. We must do more to promote equity in disaster relief resource allocation, provide equitable long-term assistance to affected regions and invest in resilient housing and infrastructure.

## Corporate Rule

***Big corporations and banks dominant our political process, spending billions to lobby for programs against the public interest, and to privatize public services for profit. This erodes the middle class, destroys vital services, increases poverty, and undermines our nation. Congress must work to return our government to the people, improve services, stand up to corporate lobbyists, and stop the privatization of public services. We need a constitutional amendment to establish that corporations are not people and that money does not equal speech.***

## Mass Criminalization

***The United States houses 25% of the world's inmates despite having only 5% of the world's population. The prison industrial complex has a vested interest in keeping people locked up. The growth of private, for-profit prisons has placed incarceration beyond public view. The administration of justice system is prejudiced against the poor and minorities.***
