Subject: Environmental Fellowship position
Attachments: Special Assistant Attorney General Position Description_.pdf

Hi everyone,

I hope all is well with all of you. I just wanted to pass along this opportunity in case you know anyone who might be qualified and interested. The position description explains it a little more, but the gist is that Bloomberg is funding through NYU some fellowship positions for mid-career environmental litigators to be farmed out to State Attorneys General to join the fight against Trump's rollback of our environmental protection laws and regulations. If you know people who might fit the bill in terms of interest and experience, please send them my way!

We should have a reunion of our own soon . . .

Thanks,
Carolyn
