Re: U.S. Veterans and Military Personnel Ignored in the Debate Around Compensating U.S. Terrorism Victims with Frozen Afghan/Taliban Assets

Dear Chairman Reed, Chairman Smith, Ranking Member Inhofe, and Ranking Member Rogers:

We write as U.S. military personnel and families of U.S. military personnel who were killed or severely injured as a result of state-sponsored terrorist attacks while serving our country around the world at U.S. embassies, military installations, and in international waters. Much to our dismay, President Biden issued an Executive Order on February 11, 2022, that effectively handed over \$3.5 billion in previously-frozen Afghan funds to a federal judge in New York to distribute to a small group of victims and insurance companies who fortuitously had obtained judgments against the Taliban, instead of directing the money into the U.S. Victims of State Sponsored Terrorism Fund (USVSST Fund) for all victims to share.

We would greatly appreciate your support in urging President Biden to reverse that decision and direct that the Afghan Funds be distributed through the USVSST Fund instead. Alternatively, we respectfully request the opportunity to discuss potential legislation that would similarly move the Afghan Funds into the USVSST Fund.

Our families, who represent all branches of the U.S. military, experienced firsthand the immediate repercussions of state-sponsored terrorism and we live with the consequences every day. In your leadership roles on the U.S. Senate and House Armed Services Committees, and as elected officials in the U.S. Senate and U.S. House of Representatives, you embody dedication and commitment to the U.S. military. We want to recognize your support for our military community and ask for your assistance with this important and time-sensitive matter.

For years, we have engaged the White House, Congress, federal agencies, and the courts in an effort to get some form of justice for our families' losses and suffering. Thanks to allies like yourselves in Congress, starting in 1996, we were allowed to sue the state sponsors of terrorism who planned and executed the deaths and suffering of our loved ones. Many of us obtained judgments, but for years we had no ability to collect or otherwise enforce them. In 2015, however, in a great act of bipartisanship, Congress created the USVSST Fund, run by a Special Master and the U.S. Department of Justice (DOJ), which could fairly and equitably

deliver long-awaited compensation to all victims of state-sponsored terrorism. It was a major victory for a community that had long been cast aside.

This decision ignores the sacrifices made by the U.S. military serving our country abroad and ignores the fundamental premise under which the USVSST was established. The USVSST was created by Congress to handle the fair and equitable distribution of funds for the benefit of all U.S. terrorism victims, rather than a select group.

Chairman Reed, Chairman Smith, Ranking Member Inhofe, and Ranking Member Rogers, we write to ask for your assistance to help correct what we can only imagine is an oversight on the part of the Biden Administration.

Thank you for your continued support of the military and all of its families, particularly in these difficult times.

Sincerely,

STEVEN ACETO
