

Yale Law Republicans and the Yale Federalist Society congratulate JD Vance '13 on his election as the 50th Vice President of the United States.

As one of the youngest vice presidents in our nation's history, Vice President-elect Vance has distinguished himself as a Yale Law alumnus and exemplifies the best of the next generation of conservatives.

On his path to the vice presidency, Vance overcame difficult family circumstances. His perseverance through an upbringing marked by childhood poverty and familial addiction is a testament to his resilience. Having achieved the American dream himself, Vice President-elect Vance will make it attainable once again for all Americans.

As a Senator, Vance has fought for America's working class, and as Vice President, he will continue to be a champion for the forgotten men and women of America, fighting to end inflation and the border crisis and defending our fundamental constitutional freedoms.

We hope the Yale Law School administration will join us in congratulating Vice President-elect Vance and honor this extraordinary achievement by commissioning a portrait at the law school, as it has done for many distinguished alumni.
