# ABDUL FOR US SENATE

Hi [REDACTED]

Years ago, I showed up to a protest in support of workers and unions fighting for a fair wage, and I got arrested:

I didn't go looking to cause trouble, and I certainly didn't expect to end up loaded into a police car that day.

I was there because people were fighting for dignity, and it mattered to stand with them.

Afterward, when my lawyer asked whether I wanted to try to get my own charge

dismissed, my answer was simple: **It's everybody or nobody.**

Solidarity means something, and I wasn't interested in special treatment.

That moment has stayed with me years later, because it clarified something I've always believed: **Progress only happens when we stand together, especially when it's uncomfortable or costly.**

That's why I support a higher minimum wage. It's why I stand with unions. And why I won't stop fighting until our government prioritizes working people instead of corporate profits.

**If you're with me, please pitch in \$10 today. I'm the only candidate in this race who's never taken money from corporate PACs or AIPAC, and staying unbought and true to our values means I'm depending on grassroots support to fuel this movement.**

Thank you. Your support makes it possible for me to keep showing up.

Your friend in the fight,

Abdul
